

David Bruce Wilson

<http://dbwilson.com>

dbwilson@alum.mit.edu

Education

- Ph.D., Mathematics, Massachusetts Institute of Technology (1996)
- S.B., Electrical Engineering, Massachusetts Institute of Technology (1991)
- S.B., Computer Science, Massachusetts Institute of Technology (1991)
- S.B., Mathematics, Massachusetts Institute of Technology (1991)

Awards and Honors

- o Rollo Davidson Prize of Cambridge University for early-career probabilists (awarded jointly to Kurt Johansson).
- o 2017 Paul R. Ford–Lester R. Halmos Award of the Mathematical Association of America (awarded jointly to Adrien Kassel).
- o 2000 Outstanding Simulation Publication Award, presented by the Institute for Operations Research and the Management Sciences College on Simulation (awarded jointly to James Propp).
- o William A. Martin Memorial Prize for best MIT undergraduate computer science thesis.
- o National Science Foundation Postdoctoral Fellowship.
- o National Defense Science and Engineering Graduate Fellowship. Also offered a National Science Foundation Graduate Fellowship and an Applied Mathematics Fellowship from the MIT math department.
- o Honorable mention for the 1988, 1989, and 1990 William Lowell Putnam mathematical competitions: 41st, 29 $\frac{1}{2}$ th (even-way tie), and 41st.

Employment and Affiliations

- UNIVERSITY of WASHINGTON DEPARTMENT of MATHEMATICS Seattle, WA
2000 – present: Affiliate faculty, currently Affiliate Professor.
- MICROSOFT RESEARCH Redmond, WA
1998 – 2017: Researcher in the theory group analyzing random structures and stochastic processes. (Most recent position: Principal Researcher.)
- INSTITUTE for ADVANCED STUDY SCHOOL of MATHEMATICS Princeton, NJ
Fall 1997 – Spring 1998: Studied 2-dimensional statistical mechanical models.
- STANFORD UNIVERSITY DEPARTMENT of STATISTICS Paolo Alto, CA
Summer 1997: Visiting scholar participating in Markov chain Monte Carlo program for 1 $\frac{1}{2}$ months.
- CENTER for DISCRETE MATHEMATICS & THEORETICAL COMPUTER SCIENCE (DIMACS) Piscataway, NJ
Spring 1997: Participant in DIMACS’s special focus on discrete probability.
- UNIVERSITY of CALIFORNIA at BERKELEY DIVISION of COMPUTER SCIENCE Berkeley, CA
MATHEMATICAL SCIENCES RESEARCH INSTITUTE Berkeley, CA
Fall 1996: Postdoctoral researcher working on algorithms related to probability.
- COLORADO STATE UNIVERSITY DEPARTMENT of STATISTICS Ft. Collins, CO
Summer 1996: Visiting scholar working on random sampling algorithms.
- MIT DEPARTMENT of ELECTRICAL ENGINEERING and COMPUTER SCIENCE Cambridge, MA
Spring 1996: Teaching assistant for “Structure and Interpretation of Computer Programs.”
- MIT DEPARTMENT of MATHEMATICS Cambridge, MA
Fall 1994: Teaching assistant for “Math for Computer Science.”
Fall 1990: Graded problem sets for a graduate theory of computation class.
Fall 1988 – Spring 1990: Developed educational software for differential equations and probability.
- SANDIA NATIONAL LABORATORIES Albuquerque, NM
Summers 1991, 1992, 1995: Analyzed cryptographic algorithms and stochastic processes.
- QUEUES ENFORTH DEVELOPMENT Cambridge, MA
Spring 1990 – Fall 1990: Programming consultant.
- MIT LABORATORY for COMPUTER SCIENCE Cambridge, MA
Fall 1989 – Fall 1990: Programmed.
Summer 1989: Wrote solutions to exercises for Cormen, Leiserson, & Rivest’s *Introduction to Algorithms*.
- MCDONNELL DOUGLAS CORPORATION Saint Louis, MO
Summer 1988: Programmed.
- BOY SCOUTS of AMERICA Belleville, IL
Summer 1987: Taught astronomy merit badge at summer camp for Okaw Valley Council.

64. “Embedding leveled hypercube algorithms into hypercubes,” *Proc. 4th Annual ACM Symposium on Parallel Algorithms and Architectures (SPAA)*, pp. 264–270, 1992.

Miscellaneous

Co-organizer of the following conferences and workshops: Pacific Northwest Theory Day (2004), the Pacific Northwest Probability Seminar (2008, 2010, 2012, 2013, and 2014), the Oded Schramm Memorial Conference (2009), the ICERM (Institute for Computational and Experimental Research in Mathematics) workshop on cluster algebras and statistical physics (2011), and the MSRI (Mathematical Sciences Research Institute) workshop on lattice models and combinatorics (2012).

Ph.D. thesis committee member for Nathaniel Blair-Stahn (University of Washington) and Zhongyang Li (Brown University). Rapporteur for the Ph.D. theses of Adrien Kassel (École Normale Supérieure) and Béatrice de Tilière (Université Paris Sud).

Co-organized the first within-MIT contest to determine who would represent MIT at the ACM Programming Contest, and served as team manager.

Mentor for FIRST Robotics Competition team #488 (2012 and 2013).

Mentor for five interns at Microsoft Research (Benjamin Wieland, Nike Sun, Samuel Watson, Xin Sun, and Ewain Gwynne).

Mentor for REU (research experiences for undergraduates) program run by James Morrow at the University of Washington (2013).

Preferred computer languages: C, Mathematica, and JavaScript; familiar with numerous others.

Designed the error correcting codes used in the Xbox 360’s Southbridge chip.
